

THE BALANCE CENTER

LSVT PROGRAM

Do you have trouble being understood?

LSVT LOUD Can Help!

LEE SILVERMAN VOICE TREATMENT:

WHAT IS IT?

LSVT is a voice treatment program aimed at increasing your quality of voice. A Speech-Language Pathologist (SLP) provides clinically proven methods to improve your communication.

Your SLP will work with your specific needs and implement a voice program that will increase your ability to effectively communicate with others.

LSVT LOUD TREATMENT CONSISTS OF:

- 1) 16 sessions: 4 consecutive days a week for 4 weeks
- 2) Individual 45 min-1 hour sessions
- 3) Daily homework practice
- 4) Daily carryover exercises

BENEFITS?

- Increased speech intelligibility, improved articulation, improved vocal quality, improved fluency, improved volume, and improved respiratory support
- You will be able to confidently apply strategies to enhance your voice

POPULATION?

- This program was designed for individuals with Parkinson's Disease
- The program can be modified to accommodate additional Motor Speech Disorders to include Multiple Sclerosis, Cerebral Palsy, Stroke, as well as other neurological disorders/conditions

Exercise can help people get better!

LSVT[®] BIG

LSVT BIG is a research-based exercise approach developed from principles of the effective Parkinson's specific speech treatment LSVT LOUD.

The LSVT Programs have been developed and scientifically researched over the past 20 years with funding from the National Institutes of Health.

Research on LSVT BIG has documented improved ratings on tests of motor functioning in people with PD following treatment. Improvements include:

- *Faster walking with bigger steps*
- *Improved balance*
- *Increased trunk rotation*

LSVT BIG is a standardized treatment protocol.

LSVT BIG treatment consists of:

- 16 sessions: 4 consecutive days a week for 4 weeks
- Individual 1 hour sessions
- Daily homework practice
- Daily carryover exercises

LSVT BIG will help you establish a LIFE-LONG HABIT of BIG PRACTICE!

LSVT BIG treatment:

- Trains a single target of amplitude (bigger movements)
- Drives intensive and high-effort practice
- Teaches the amount of effort required to produce normal movements
- Translates bigger movements into real-world, everyday activities
- Empowers people with PD with their potential to improve!

LSVT BIG will teach you how to avoid inactivity and keep your movements ALIVE during everyday activities. It will help you participate fully and improve the quality of your life!

Make the commitment today...

**Don't Lose it! Use it!
And improve it!**

LSVT[®]BIG = BIG Exercise!

Research suggests that you should NOT wait until you begin to experience disability, impaired function or loss of balance to start exercise-based physical and occupational therapy.

LSVT BIG techniques train individuals with PD and other neurological conditions to use bigger movements anywhere, anytime in daily living. This empowers individuals with the potential they have to keep moving and stay active.

It is essential that LSVT BIG treatments are delivered by physical or occupational therapists who are certified in this method.

The Official Source of LSVT Treatments

LSVT Global offers both speech therapy (LSVT LOUD) and physical/occupational therapy (LSVT BIG) programs for individuals with PD or other neural conditions, and provides certification and training for professionals.
